

Empathy Map

Date	26 June 2026
Team ID	SWTID-2026-9097
Project Name	Voice Based Concept Understanding Analyzer
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand users of the **Voice Based Concept Understanding Analyzer** by analysing what they **Say, Think, Do, and Feel** while explaining concepts verbally. This helps the team design an AI-powered solution that evaluates conceptual understanding, provides personalized feedback, and generates detailed performance reports for improved learning and assessment.

SAYS	THINKS
• I understand the concept but struggle to explain it. • I need instant feedback on my explanation. • I want to identify my mistakes. • This should help me prepare better.	• Have I truly understood the concept? • Is my explanation clear and complete? • Can I improve my communication skills? • Will this help me perform better in exams and interviews?

PERSONA NAME (Role / User Type)	
DOES • Records voice explanations. • Uses the analyzer for AI feedback. • Reviews suggestions and practices repeatedly. • Tracks improvement over time.	FEELS • Anxious before explaining concepts. • Frustrated by unclear explanations. • Encouraged by constructive feedback. • Confident after continuous improvement.
